

MHF4 low profile RF co-axial connector

Overview :

This low profile RF co-axial connector is developed mainly for mobile phone's high speed wireless communication.

Features :

1. Solderless Cable Termination - "i-Fit®" technology.
2. Mating height 1.2mm MAX. Applicable wire: AWG#36 (Ø0.81O.D.) Co-axial Cable.

Electrically characteristic :

1. Frequency: DC~6GHz
2. VSWR: 1.3MAX. (DC~3GHz), 1.5MAX. (3~6GHz)
3. Characteristic impedance: 50±3ohm (TDR)
