

KEL

NEW 8927E SERIES IDC CONNECTOR

KEL releases 1,27mm pitch connectors for discrete wire

The 8927E Series is a half-pitch connector for discrete wires (AWG#28). The board side connector is of a straight SMT type with the smallest possible flange to minimize size.

The cable side connector incorporates KEL's unique Eject/Lock mechanism that conveniently allows connection/disconnection of the connector with one hand.

Features:

- 1,27mm pitch board to cable connector
- Designed for discrete wire (AWG#28)
- IDC type connection
- Incorporates the Eject/Lock mechanism for connect/disconnect with one hand
- Highly reliable design ensuring positive contact retention and precise fit.
- Smooth insertion/removal due to face-to-face contact
- Trilateral moulding prevents contact deformation
- Available with 20 and 40 contacts
- Board connector SMT, height 6mm
- RoHS compliant
