

**Customized Products: Over 80 % of our products are special custom designs !!**

### Connectors and cable assemblies

Sensor solutions + wire harnesses: taylor made to your requirements.

### Special housings

Own molding facilities spell flexibility when it comes to special housings, snap-fit solutions and inserts.

### PCB assemblies

Where large quantities in particular are concerned, assembly costs can make or break a product.

We will be happy to supply Reed Switches and other components as fully assembled PCBs including cable and connector at highly competitive prices.

### Hall Sensors

In cases where Reed Technology is reaching its limits (extended operating frequencies etc.)

we offer Hall-based switching components with open collector output or two-wire variants.

### Customized Level Sensors

We can do much more than what you see in this catalogue.

### Magnets

We design the matching actuator magnet for your application - bare or cased.
