

Brief Presentation

Touch Connector F Series

Metal housing, waterproof degree IP50 to IP68, conical sleeve locking with 6-8 reeds, with semicircular metal chip to avoid turning; 2 to 9 pins; 360 degree screening for full EMC shielding ...

Metal BP Connector

Widely used in medical apparatus and instruments and industries with wind (water) pipe interconnection. Ambient temperature: -30°C degree ~ 60°C degree; Life: Push on/off 1000 time ...

Connector (FFA.2C.306 - ERY.2C.306)

Interchangeable with **LEMO** 2C series, which is LEMO short series connector, featuring a hermaphroditic insert.

Connector S Series

Metal housing, waterproof degree IP50, vacuum airproof degree IP68, multi reed locking, with half-moon insulator to avoid turning; 1 to 6 pins; **LEMO** compatible ...

Fluidic Connector

This kind of fluidic connector has many applications, for example in medical and dentistry equipments. The connector is of the mono-tube type and primarily intended for use with air or inert gas; **LEMO** compatible fluidic connector ...

Watertight Connector K Series

Waterproof self-latching connector, metal housing, waterproof degree IP68, multi reed locking, with keying avoid turning; 2 to 26 pins; interchangeable with **LEMO** & **ODU** connector ...

Connector B Series

We manufacture circular connectors, with wide varieties of insert configurations and shell styles. They can mate with **LEMO & ODU** connectors perfectly. Our high quality push- pull connectors are found in a variety of challenging application environments including medical, industrial control, test and measurement, audio-video and telecommunications.

Connector C Series

Metal housing, waterproof degree IP50 to IP68, conical sleeve locking with 6-8 reeds, with keying to avoid turning; 2 to 21 pins; 360 degree screening for full EMC shielding; **ODU** compatible ...

Medical Connector P Series

Plastic housing, waterproof degree IP50, double reeds locking conical with keying to avoid turning; 2 to 14 pins; interchangeable with **LEMO** ...

Plastic Socket with Elbow Contacts

Touch connector; Plastic socket; With elbow contacts; multi-core 2 to 14pins; Mate with **LEMO & ODU** counterparts.
