

VTC Cabling System for Micro-inverter

Amphenol LTW VTC cabling system for micro-inverter alternating current (AC) improves power performance, ease of installation, reducing installation and cost of ownership. This system enables installers the customized ability to determine the numbers of T-junctions needed for each project based on the cable size selected whilst meeting the latest UL, TUV and NEC safety standards and regulations. Certification (In-Progress): UL 6703A and UL 9703

PT Configuration

PA Configuration

The stripping of the insulations and jacket is done by fully patented automated process with **NO INTERRUPTION** throughout the entire cable assembly and seamless current with virtually no drop of power. This is an Amphenol LTW patented technology.

Specification

- | | |
|------------------------------|-----------------------|
| • 3 or 4 pin | • IP 67 waterproof |
| • Rated voltage: 300V AC | • IP 2X touch-proof |
| • Current capacity up to 30A | • Unlock with tooling |

Cable Specification

- | | |
|--|------------------------|
| • UL Type TC-ER | • 90°C Dry or 90°C Wet |
| • UV Resistant | • -40°C Cold Bend |
| • Drop Cable: 18 AWG with 3C or 4C | |
| • Trunk Cable: 10-14 AWG with 3C or 4C | |

Accessories

PWII Series Power Connector
(For Trunk Cable)

BMC Series Power Connector
(For Trunk Cable)

Unlocking Tool

Dust Covers

Waterproof Caps

End Cap
