

## Industrial Wire Harness

BCE is a Distributor of cable harness manufacturers, BCE features quick design services and prototyping that are critical in supporting an engineering effort during new product development. Our R&D team is actively supporting our clients in the development, prototyping and supply of reliable industrial cable assemblies. BCE is a specialist for to supply custom designing and manufacturing wiring harnesses for the:

- Motor vehicles and Farm Automation market, Automation and Network Solutions
- Forklifts, trucks, ATVs, snowmobiles and a wide range of industrial motor vehicles and robotics industry
- Marine industry
- Mining industry
- Seaports, cranes and on offshore platforms
- Transit systems industrial cable solutions, both signalling and power
- Electromechanical harnesses with industrial connectors, hermetically sealed
- Medical device
- Industrial Applications

We can supply manufacture harnesses perfectly complying with your specification, or be a part of your product development and help you through your design process. After working with custom design in a number of different industries, we know by experience the importance of close dialog with our clients. Our expertise, combined with yours, we will find and deliver the best solutions to you.
