

# BALL GRID ARRAY SOCKETS & ADAPTERS

**Only from Andon  
Rollerball® Sockets  
with Solderballs**

*Developed for Aerospace and Military high  
shock and vibration 25 years life requirements*

- *Reduces the cost of rework and potential damage where it is difficult to maintain tight co-planarity*
- *The Rollerball® solder ball flows evenly onto the PCB solder pad*
- *Eliminates rework cost and damage to expensive Multi-layer boards*

**Available in any configuration or footprint! Visit us at**
