

Amphenol LTW LED Lighting Applications

Amphenol LTW (ALTW) understands the unique interconnect needs of the LED market and its vast application. With IP65 to IP68 waterproof ratings, EMI and UV resistance, UL, CE and/ or TUV approvals, ALTW's wide array of products can be used for all LED applications. In addition, ALTW's Intelligent Pre-Cabing System (IPCS) is your perfect solution for incorporating LED Lighting in outdoor display and architecture. It enables to save 20% to 80% off of your installation time and cost for the electrical wiring and cabling infrastructure.
