

MH DU45ZK series Diecast D-Sub Hood

MH has always strived to work closely with its customers to achieve the best product offering and service on the market. In response to customer demand we have developed a new full metal hood named the MH DU45ZK series.

This new design offers the following benefits to our customers:

- Full metal hood for excellent EMI / RFI Shielding
- Dual entry at 45° angles
- A single housing screw for fast assembly
- Blanking plate for the unused entry point
- Locking mechanism to secure the hood once assembled
- Accepts cable diameter of 4.8-9mm (9way) 4.8-11mm (15-25way)
