The New Symbol of the High Density Mating Age

Contacts with 2 mating points straight-beam construction (Patented)

The KEL patented Hi-PACKEL™ contact design features 2 mating points and straight-beam construction, which offers low insertion force and high reliability.

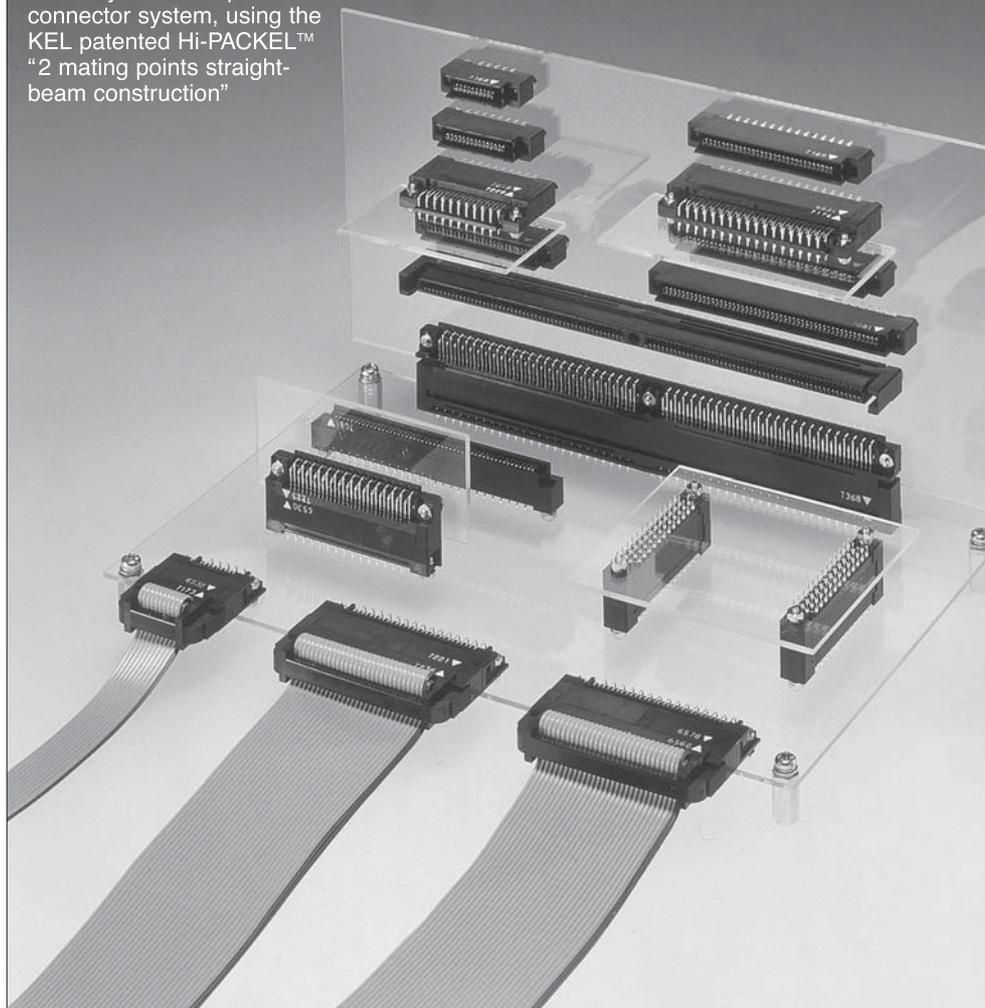

This ingenious design creates a long wiping action for both contacts upon insertion, 2 separate contact points for excellent continuity and straight-beam construction resulting in excellent reliability.

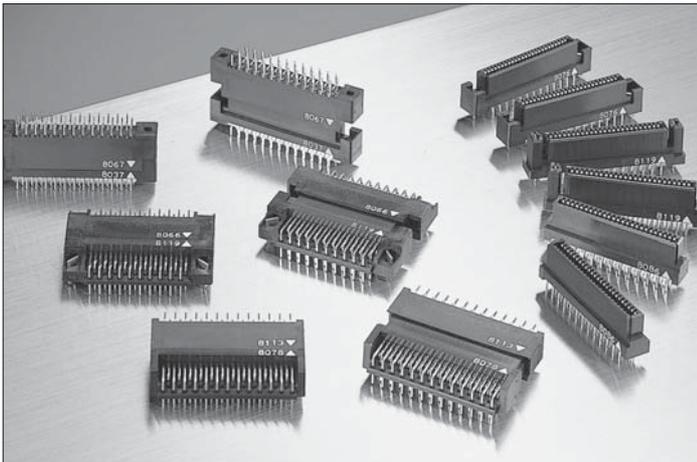

■ **Variation** (KEL offers 4 configurations to address varying design needs)

With flanges (Without hooks) 8800 / 8810 series	With flanges (With hooks) 8801 / 8811 series	Without flanges 8802 / 8812 series	With power contacts 8803 / 8813 series
• Flanges (without hooks) has holes for screw mounting.	• Flanges (with hooks) prevents the connector from "floating" during the dip solder process.	• Without flanges to save space.	• With power contacts in cases where it is desired that power and signals be separated.

Hi-PACKEL Family of connectors offer superior reliability in a "half-pitch" connector system, using the KEL patented Hi-PACKEL™ "2 mating points straight-beam construction"

KEL offers abundant variations and many series to address the various needs of our customers. We recommend the 8800 Series (Hi-PACKEL™) for board to board, cable to board and I/O, "half pitch" connector applications.

FEATURES

- Patented Hi-PACKEL™ contact design features 2 mating points per connection
- Low insertion and withdrawal force
- Plug and Receptacle contacts share common tooling which means increased productivity and greater product diversity
- Insulator designed to prevent mis-insertion and protect the contacts from damage
- Power (Ground) contacts are first mate and last break
- RoHS compliance

SPECIFICATIONS

- Insulator : Glass-filled Nylon 66 (UL 94V-0), Black
- Contact : Phosphor Bronze
- Plating : [Signal contact]
 - Contact area ; Gold over Nickel
 - (1) Standard : 0.05μm min. Gold
 - (2) Upon request : 0.25μm min. Gold
- Plating : [Power contact] (8803/8813 series) ;Gold over Nickel
 - (1) Standard : 0.05μm min. Gold
 - (2) Upon request : 0.25μm min. Gold
- Current rating : Signal contact ; 0.5A per contact
Power contact (8803/8813 Series) ; 2A per contact
- Contact resistance : 25mΩ max.
- Withstanding voltage : 650V AC for 1 minute
- Insulation resistance : 1,000MΩ min. at 500V DC
- Operating temperature : -55°C to +85°C
- Insulation force (Typical example) :
 - 1.9kg max. / 20 pin, 3.8kg max. / 40 pin
 - 5.7kg max. / 60 pin, 9.5kg max. / 100pin
- Withdrawal force (Typical example) :
 - 0.3kg min. / 20 pin, 0.8kg min. / 40 pin
 - 1.2kg min. / 60 pin, 2.0kg min. / 100 pin

ORDER CODE
