

WEIPU CONNECTOR Marches on 5G Base Station Market

Currently, 5G Base Station deployment requires a great demand for waterproof connector. We collected inquiries from our customer and invest a lot on R&D that can meet the needs for 5G power connection markets.

Weipu 5G Connector Series

SP29 Series is IP68 connectors, threaded coupling with a larger size and higher current range, it is a strong and tough connector designer for indoor / outdoor and underwater IP68 environments. This IP68 connector is widely used on power connector, LED lighting, communications, solar energy and control boxes. The 30A/50A 2 pins and 3 pins connectors are ideal for 5G Base Station Power Box.

B.C.E. S.r.l. - Via Regina Pacis, 54/c - I 41049 Sassuolo (MO), Italy

APPLICATIONS:

- Base station antennas / power box
- MIMO antennas
- Wireless fronthaul
- Fixed wireless broadband
- Mobile devices
- Internet of Things
- Critical communications
- Wireless modules

Weipu is always dedicated in the industry and keep constantly improving the best solution to simplify 5G related power connection. Ensure high data rates, cost-effective, safer and reliable connector in your 5G Deployments is our top priority. Find out more on our product page below:
