Spring Pin Socket for BGA153

Test your BGA153 device using high performance 31GHz spring pin socket and low 14g force per pin. Small footprint (only 2.5mm larger than device per side) allows capacitors and resistors be placed very close to device. Swivel lid provides easy open/close operation for device swapping.

Ironwood
ELECTRONICS
A HEICO COMPANY

Ironwood Electronics, Inc. offers high performance test sockets and adapters for both engineering and production use of semiconductor devices. IC packages covered include QFN, BGA, SOIC, QFP, LGA, WLCSP and other SMT packages. Our GHz line of sockets with 6 different contact technologies supports up to 110 GHz bandwidth, $\geq 0.2\text{mm}$ pitch, ≤ 10000 pins, 500K insertions and the smallest footprint in the industry !

High Performance Sockets & Adapters
